

Greetings I am Clemaus Tervalon,

I was born and raised in Oakland California. I currently attend College of Alameda with a major in psychology. During my time at COA I have served as the Associated Students College of Alameda Treasurer, President and Delegate to the SSCCC. It was my time as delegate working with the bright individuals which comprise the student body of Region III that inspired me to pursue my current position in which I serve as the SSCCC Region III Vice Chair.

As we have together succeeded in rebuilding Region III it has become more and more evident that one of the best tools we possess to conquer the obstacles that present themselves along the way of our academic journey is the power of our voice, collectively the Student Voice. While serving this year on the SSCCC Rules and Resolutions Committee I have been honored to see the power of the student voice make positive changes as we debated and resolved resolutions that will shape the future of our education during our last General Assembly session. I am committed to doing the good work involved to continue building on the foundations established that have led to our success this year if elected. I look forward to working together and serving you as the SSCCC Region III Regional Affairs Director.
